

What happens if...?

You probably don't like thinking about problems and disasters, but you have probably thought about insurance – because all of us have to!

We will work with you to find the most appropriate policy, the most appropriate cover, and the most suitable deal – with no hidden snags – at a price you are willing and able to pay.

Mortgages

There are many mortgage deals in today's market, but the most suitable aren't always easy to find. At Thompson Financial Consulting Ltd we will find them for you – and make sure you get the most suitable available deal that suits your individual needs and your budget.

Your home may be repossessed if you do not keep up repayments on your mortgage.

A typical fee for mortgage advice would be £1500.

Advice you
can trust...

...or could you use a little help?

You will probably agree that today's financial marketplace is a pretty confusing place – and what's worse, it's changing all the time.

So how would it be if all the answers you needed were available locally, from a completely independent, professional adviser with an outstanding reputation for customer service?

Ask any of our clients, and they will tell you that's just what you get from Thompson Financial Consulting Ltd. Because we have two very simple aims.

To make your money work as hard as possible.

And to ensure you keep as much of it as you can.

Whether your need is for a mortgage, a pension, an investment, inheritance tax planning, or protection for you, your family and your business we aim to help you make the most of your money.

So isn't it time you gave us a call?

We can help you make the most of your money.

Is your money working hard enough?

If you have ever gone looking for a good pension – or a good investment – you know how tricky it can be.

Our qualified consultants will talk with you, in detail, about your financial circumstances – including the investments and pensions you already have.

That way we can understand precisely what you need, what you can afford, and the types of investment you are happy to make.

Then we look at the whole of the market – not just a part of it – and pick out the products that will deliver the best performance for you.

But it doesn't stop there. We can come back every year for a routine review. Because like the money market, your life is always changing.

And we aim always to match your changing needs.

So why not give us a call?

We look at the whole of the market – not just a part of it.

Want to do the best for your children?

Of course you do – and in a changing and uncertain world, you want to know their future is secure.

So how safe is their legacy?

Twenty years ago most of us didn't think about inheritance tax. But today many people have assets, including their family home, which would incur inheritance tax if they died. If your assets are valued at more than the tax free limit then you pay 40% tax on the excess – this could mean a substantial inheritance tax bill.

At Thompson Financial Consulting Ltd we'll make sure that as much as possible of your estate goes to the people you want to have it.

Give us a call today to find out more.
